Launch of Onamae.com Mobile Server Service

GMO Internet today launches Onamae.com Mobile Server, a feature rich SaaS mobile site hosting service aimed at businesses seeking a simple, low cost platform for developing and operating sophisticated mobile websites.

Please refer to the following press release for details.

GMO Internet, Onamae.com Launches SaaS Mobile Site Hosting Service

Tokyo – April 16, 2009 – GMO Internet announces the launch today of Onamae.com Mobile Server, a feature rich SaaS mobile site hosting service aimed at businesses seeking a simple, low cost platform for developing and operating sophisticated mobile websites.

Onamae.com Mobile Server

Jointly developed by GMO Internet and paperboy & co. *1, Onamae.com Mobile Server is a feature rich mobile site hosting service aimed at businesses seeking a simple, low cost platform for developing and operating sophisticated mobile websites compatible with the three major Japanese cell phone carriers.

Outstanding Cost Performance and a Service Packed with Features

Unlimited number of pages, large capacity 1GB disk, free set up, and monthly fees of just 315 yen (including tax). The low-priced service allows businesses to use their own domains and offers as standard features coupon and blog functions, SEO, and access analytics; everything needed to operate a website,

Design Templates and Simple Administration Screen Enable Fast and Easy Website Construction from a PC.

Users simply access the administration screen from a PC over the Internet, select a design template (nine available options) and enter the required information (site name, images, text etc.) to construct a full-scale mobile website accessible from the three major Japanese cell phone carriers. We offer an administration screen that will allow customers that have never created mobile websites before to quickly become proficient.

Maximized Domain Usage

Companies that use Onamae.com Mobile Server in conjunction with Onamae.com Shared Server SD, a service with an established reputation for delivering high cost-performance, will be able to maximize usage of their domain. Onamae.com Shared Server SD users are eligible to trial the new mobile service for ninety days.

Onamae.com

Onamae.com provides web infrastructure services including domain registration and web hosting.

In April 2009, GMO Internet comprehensive web business hosting brand Rensaba.com was integrated with the Onamae.com brand and became Onamae.com Rental Server, enhancing liaison between the domain and web hosting businesses. With the introduction of Onamae.com Mobile Server, Onamae.com becomes a web infrastructure service provider that allows customers to operate PC and mobile websites using the domain best suited to their needs to maximum advantage.

Onamae.com continues to provide services that fulfill customer demands and expectations. At the same time we aim to inspire our customers and make them smile.
