Upward Revision to Dividend Forecast for Fiscal Year Ending December 2011

A GMO Internet Board of Directors meeting convened today resolved to revise dividend per share forecasts for the current term as follows.

1. Reasons for Revision

GMO Internet considers overall business performance and financial position when making decisions regarding dividend payments. However, the company generally aims to return 33% of net profit to shareholders as part of its commitment to clearly demonstrating shareholder value.

In accordance with the above dividend policy, having given consideration to overall business performance in the current term (FYE12/2011), it has been resolved to increase total dividend per share from 8 yen to 10 yen in the 2011 fiscal year. (Third and fourth quarter dividend forecasts have each been raised from 2 yen to 3 yen.) This is a 33.8% dividend payout ratio.

2. Details of Revision

	Dividend per Share				
	End of Q1	End of Q2	End of Q3	End of Term	Total
Previous Forecast (February 8, 2011)	¥2.00	¥2.00	¥2.00	¥2.00	¥8.00
Current Forecast	—	—	¥3.00	¥3.00	¥10.00
Actual Dividend	¥2.00	¥2.00	—	—	—
Actual Dividend in the Previous Term (FYE12/2010)	—	¥2.00	—	¥5.00	¥7.00
